

GAGANA UDAY KUMAR

+1(737)-326-9878 | gagssan@gmail.com | [Portfolio](#) | [LinkedIn](#) | [GitHub](#) | Texas

SUMMARY

Results-driven Data Analyst with 7+ years of experience in extracting insights from complex datasets using predictive modeling and statistical analysis like regression, clustering, and classification. Strong analytical skills in identifying trends, anomalies, and outliers to drive data-informed decisions. Skilled in forecasting consumer behavior, optimizing workflows, and improving efficiency. Proficient in A/B testing, hypothesis testing, and statistical techniques to enhance business strategies. Excellent communication skills with a proven ability to collaborate with cross-functional teams and translate insights into actionable recommendations.

EDUCATION

The University of Texas at San Antonio, San Antonio, TX

08/2024

Master of Science in Data Analytics

GPA: **4.0/4.0**

Visvesvaraya Technological University, Belgaum

06/2014

Bachelor of Engineering in Information Science

GPA: **3.4/4.0**

TECHNICAL SKILLS

- **Languages:** Python (Pandas, NumPy, Scikit-Learn), SQL, R, SAS
- **Data Analysis & Visualization:** Tableau, Power BI, Matplotlib, Excel.
- **Data Storage & Querying:** Snowflake, PostgreSQL, MySQL, Redshift, BigQuery.
- **ETL & Data Pipeline Automation:** Apache Airflow, DBT, Informatica, Teradata, Hadoop.
- **Cloud Platforms:** AWS (Redshift, S3, Lambda), Azure Synapse, Google Cloud.
- **Statistical Modelling:** A/B Testing, Regression, Hypothesis Testing, Time Series Forecasting, ANOVA.
- **Business Intelligence (BI) Tools & Analytics:** KPI Reporting, Dashboard Creation, Automated Reporting, JIRA.

PROFESSIONAL EXPERIENCE

Data Analyst Intern, Better Futures Institute, San Antonio, United States

05/2024 - 08/2024

- Built a **ML model** with **65%** accuracy, leveraging **predictive analytics** to forecast 311 requests, optimize repair schedules.
- Applied **hypothesis testing**, **A/B testing**, & **causal inference** in **Python & R**, boosting proactive repairs by **20%**.
- Designed interactive dashboards using **Power BI**, enhancing resource allocation by **25%** and driving data-informed decisions.
- Analyzed **GIS files & time-series data** in **SQL**, uncovering trends in 311 requests, boosting community engagement by **30%**.
- Streamlines maintenance workflows through **data wrangling** and **ETL/ELT** processes, delivering actionable insights efficiently.

Senior Analyst, Lowes India, Bangalore, India

07/2020-09/2022

- Optimized **2TB+** datasets using **SQL** on **Snowflake & Power BI**, improving query efficiency by **25%** & informing strategies.
- Crafted real-time **Power BI** dashboards with **DAX** functions, reducing reporting turnaround time by **30%** and tracking **KPIs**.
- Conducted **A/B testing**, **hypothesis testing** to measure process improvements and increasing efficiency by **15%**.
- Applied **Agile** methodologies to iterate on data solutions, aligning technical deliverables with business needs.
- Performed **feature engineering & EDA** on customer data in Python, providing recommendations to optimize pricing strategies.
- Automated data workflows and reporting with **SQL queries**, enabling real-time tracking and reducing manual efforts by **20%**.
- Mentored **6 team members** on **SQL**, **Power BI**, & analytics techniques, elevating team proficiency & operational capabilities.

Senior Product Compliance Associate, Amazon India, Bangalore, India

12/2018-07/2020

- Boosted team productivity by analyzing datasets with **Tableau** and **DBT**, driving insights that boosted operational efficiency by **8%**.
- Built **ETL pipelines** using **AWS Redshift** and **S3** to transform and load data, improving data accessibility by **40%**.
- Automated repetitive data preprocessing tasks with **Python & SQL**, reducing manual effort by **30%**, enabling real-time analytics.
- Worked collaboratively with teams to optimize workflows, enhance data-driven decisions, and improve efficiency by **15%**.
- Identified and resolved food safety compliance issues in **e-commerce product complaints**, reducing escalations by **20%**.

Lead Item Data Specialist, Target Corporation, Bangalore, India

01/2017-11/2018

- Orchestrated item data management & vendor coordination, achieving a **98%** on-time product launch rate & increasing sales by **20%**.
- Developed **SQL queries** to **clean, analyze** and track team & department-level performance metrics, delivering actionable insights.
- Designed **Power BI dashboards** to monitor item performance and sales metrics, enabling real-time decision-making.
- Enhanced guest **feedback analysis** processes, addressing issues swiftly and increasing satisfaction scores by **15%**.

Data Analyst, Technosoft Global Corporation – Target Corporation, Bangalore, India

07/2015-12/2016

- Analyzed Target.com product offerings vs. competitors, identifying **15 opportunities** that boosted market share by **10%**.
- Created **Tableau visualizations** for monthly reports, enabling data-driven decisions and enhancing reporting efficiency.
- Led **reverse mapping & price variance analysis** projects, driving **20%** improvement in operational efficiency & success rates.
- Collaborated with **cross-functional** teams to enhance pricing and inventory strategies, improving overall product availability.

Business Development Manager, MyDeals247 Pvt. Ltd, Bangalore, India

07/2014-03/2015

- Maintained client engagement by providing updates on products and market trends, increasing satisfaction and retention rates.
- Researched global markets to identify trends, driving innovative strategies that boosted market penetration and competitiveness.
- Contributed to product line expansion and ideation of new products, supporting growth and working closely with stakeholders.

ACADEMIC PROJECTS

Predicting Advertisement Clicks | *R, Power BI, Tableau*

[Project Link](#)

- Presented actionable insights on user behavior and engagement patterns by visualizing data with Power BI and Tableau.
- Enhanced ad targeting strategies by identifying critical factors influencing ad interaction through rigorous statistical analysis.
- Achieved up to 98% accuracy in forecasting ad clicks using predictive models (Logistic Regression, Decision Trees, SVM, and Random Forest).

Predictive Modeling for Direct-Mail Fundraising Campaigns | *Python, Statistical Methodologies*

[Project Link](#)

- Developed a Random Forest predictive model for veteran organization fundraising, achieving 79.7% accuracy, 0.911 ROC AUC.
- Performed data preprocessing on a 3,000-record dataset, addressing missing values, removing correlated features, and enhancing donor engagement and cost-effectiveness.

World Energy Consumption and Population Analysis (1995-2021) | *SAS Enterprise Guide, PostgreSQL*

[Project Link](#)

- Utilized time series graphs to visually depict trends, revealing that 76.47% of countries showed a significant correlation between population growth and energy consumption.
- Led a detailed SAS Enterprise Guide analysis on global trends in Energy Consumption and Population from 1995 to 2021, using advanced PROC SQL to explore the relationship between population growth and energy use.

H1B Insights: Visualizing US Applicant Trends & Salaries | *Python, Snowflake, Tableau*

[Project Link](#)

- Identified 'Software Developers, Applications' as the top job title preference and visualized H1B visa trends in Tableau, highlighting filings, state, city, and company statistics.
- Concluded findings with observations on how policy changes, such as the 2020 DOL Wage Rule change, influenced dynamics among H1B applicants.

ACHIEVEMENTS

- **Winner – SAS Curiosity Cup 2024 (Data Visualization Category)** | Achieved **1st place among 107 global teams** for an advanced data visualization project on **World Energy Consumption**, demonstrating excellence in analytics and storytelling.
- **Promoted to Senior Analyst, Lowe's** | Advanced from **Analyst to Senior Analyst** by driving **continuous process enhancements**, improving operational efficiency, and establishing expertise as the **team's subject matter expert**.
- **Promoted to Lead Item Data Specialist, Target Corporation** | Progressed from **Senior Item Data Specialist** to **Lead Item Data Specialist** for **pioneering process improvements**, optimizing data workflows, and **mentoring associates** to enhance team performance.

CERTIFICATIONS

- **Snowflake:** Hands-On Essentials: Data Warehousing Workshop from Snowflake
- **Coursera:** Machine Learning with Python (IBM) Link to Certification
